Dr. Babasaheb Ambedkar Marathwada  
University, Aurangabad

Organized by  
In  
collaboration  
with

ICON,  
Center for Assisted Learning,  
Garkheda, Aurangabad

Date: February 20<sup>th</sup> & 21<sup>st</sup> 2018 (Time: 10:00 to 5:30)

- ♦ **About the workshop:** Every growing child is unique so there developmental pattern & needs are different. Aberrations in the development are a great cause of concern for the parents and teachers of a child. The causes can be many; namely cerebral palsy, sensory impairment, Autism, Attention deficits, Speech delay, Borderline intelligence or learning disorders like dyslexia etc. Such children with "Special Needs" or "Different Children" require special attention & understanding for optimizing their development. Few of them need special school while those with mild to moderate delay can receive effective education in formal schools with good Inclusive Education practices.

Our children are the future of the nation & healthy upbringing of the child is responsibility of all those who come in contact with the child. Parents and Teachers or educators need to be empowered to understand the needs and ability of the "Different Child" and help every child to reach his/her best potential. We would like to propose a basic capacity building workshop for the teachers to educate them about Developmental disorders in children and encourage them to practice effective Inclusive Education.

We look forward to a favourable reply & creating help for the Different children in schools as a team.

- ♦ **Eligibility:** This workshop is open to the academicians, teachers, faculty members, research scholars.
- ♦ **Objective of the workshop:** The main objective of this workshop is to **build awareness regarding Inclusive education** with the help of theory lectures, practical demonstrations, case studies, group discussions, role plays, audio-visual demonstrations.
- ♦ **What will be covered?** - Who is a Different child or a Special Child?; Highlights of normal development of a child which are the common developmental disorders in children?; Screening methods for developmental disorders in schools.; What are special education techniques?; Trans disciplinary care of a special child by a team. & Inclusive education policies.
- ♦ **Registration:** Interested candidates must fill registration forms on or before **17<sup>th</sup> Feb. 2018** with fees and those whose registration is accepted through mail, may do spot registration with fees before 10:30 am on **20<sup>th</sup> Feb. 2018**.
- ♦ **Registration Fee:** Rs. 500/- only.
- ♦ **Registration Centers:** 1) Dept. of Education, New Building (Near SAI), Dr. B. A. M. University, Aurangabad
