About the Institute

Gramaudyogik Shikshan Mandal (GSM), Aurangabad is the parent trust of MIT, established in 1975 in Maharashtra, India for the education, research and primary schooling to post graduate courses, as well as, targeted vocational training. MIT include graduation programs in agriculture, engineering and technology, information technology, architecture, food technology, health sciences and nursing; post graduation programs in food processing technology, engineering and technology, management and architecture.

MIT has developed state of the art infrastructure, with greater emphasis on computer centers, learning aids and research laboratories, at each of its institutes supported by qualified and dedicated staff members.

MIT has been continuously encouraging its institutes to create conducive environment for exchange of knowledge, by developing linkages with industries and other organizations.

MIT is a pioneer in this endeavor and has successfully established mutually beneficial triangular partnership among academic institutions, industries and government organizations.

Such collaborative approach has facilitated trailblazing solutions to real-time problems of industries and paved a way for research projects. MIT has also fostered greater association with a lot of companies for student training and their placements.
