

#### Course Outcomes and Program Outcome Attainment for Bachelor of Vocation B.Voc Automobile Program

Course outcomes and program outcome attainment for a Bachelor of Vocation (B.Voc) in Automobile program typically include a blend of technical skills, theoretical knowledge, and practical experience relevant to the automotive industry. Here's a generalized outline of potential course outcomes and program outcome attainment for such a program:

#### **Program Educational Outcomes (PEO):**

**The** Objective of the B.VOC Automobile program are to produce graduates who:

- 1. Have a strong foundation in Automobile systems and Automobile Troubleshooting and Diagnostics with an ability to solve important problems in modern technological society as valuable, productive technicians and supervisors.
- 2. Have a broad based background to practice B.VOC Automobile in the areas of Automobile Manufacturers, Service Industry, Autotronics, Auto Ancillary industry and Government sectors meeting the growth expectations of stakeholders.
- 3. Have an ability to pursue higher studies and succeed in academic and professional careers.
- 4. Have the ability to address professional demands individually and as a team member communicating effectively in technical environment using modern tools.
- 5. Recognize the need for and possess the ability to engage in lifelong learning.
- 6. Will be sensitive to consequences of their work both ethically and professionally for productive professional career.

#### **Program Outcomes (PO):**

**Vocational Education** is education that prepares the students for specific trades, crafts and career sat various levels and scopes. It trains the students from a trade/ craft, technician or professional position in R & D organizations.

The Program Outcomes are the skills and knowledge which the students have at each exit level/at the time of graduation. These Outcomes are generic and are common to all exit levels mentioned in the programme structure.

- PO 1. **Basic knowledge:** Apply knowledge of basic sciences, basic statistical, and fundamental engineering/ technology to solve the broad spectrum Automobile related problems.
- PO 2. **Discipline knowledge & Problem Analysis:** Apply transboundary knowledge of a broad spectrum of technology that encompanses (but not limited to) electronics, mechtronics, electrical, robotics and control system to identify Automobile related problems.
- PO 3. **Design Development of solutions:** Design / develop solutions for complex engineering or technological problems or challenges for Automobile related problems
- PO 4. **Conduct Investigation of complex problems:** Use research based knowledge and research method including design of experiments/systems, analysis and interpretation of data and synthesis of information to provide valid conclusion

- PO 5. **Modern tools:** Apply relevant and recent Automobile technologies and tools with an understanding of the limitations.
- PO 6. **The engineer and society:** Assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to practice in field of Automobile.
- PO 7. **Environment and sustainability:** Apply Automobile solutions for sustainable development practices in societal and environmental contexts.
- PO 8. **Ethics:** Apply ethical principles for commitment to professional ethics, responsibilities and norms of the practice also in the field of Automobile.
- PO 9. Individual and team work: Function effectively as a leader and team member in diverse/ multidisciplinary teams.
- PO 10. **Communication:** Communicate effectively in oral and written form.
- PO 11. **Project management and finance**: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work as a member and leader in a team, to complete project in any environment.
- PO12. **Life-long learning:** Engage in independent and life-long learning activities in the context of technological changes also in the Automobile based industry.

#### **Program Specific Objectives (PSO):**

After 3-4 years of completion of the program, students will be able to -

- 1. Apply knowledge of motor vehicles, their manufacturing and servicing & repair technology in solving complex problems in automotive field.
- 2. Design systems for motor vehicles, their manufacturing & servicing & repair sectors.
- 3. Diagnose faults in motor vehicles and its systems.

#### **B.Voc Automobile First Year**

1. CO-PO-PSO Articulation Matrix for Course Code AUVOC 101: Linguistic Proficiency (English)

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Apply grammatical										Н					
tools to formulate															
correct sentences in															
English.															
Apply concept of tenses										H					
to formulate correct															
sentences in English.															
Formulate different										Н					
types of dialogues,															
expression of															
ideas/information in															
English															
Compose applications,										H					
reports, requests,															
responses, summary															
and comprehensions in															
English															

#### 2. CO-PO-PSO Articulation Matrix for Course Code AUVOC 102 Basic Automobile Systems [ASC/N 1402]

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain the auto component manufacturer	Н	M											Н		
specifications related to thevarious components/aggregates in thevehicle.															
Explain functioning of Basic Automobile systems components and aggregates of a vehicle.	Н	M											Н		

# 3. CO-PO-PSO Articulation Matrix for Course Code AUVOC 103 Engineering Drawing

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Know the importance			Н											Н	
of drawing standards															
and drawing basics to															
prepare drawing.															
Visualize geometrical			H											Н	
solids and draw															
orthographic															
projections for given															
solid.															
Demonstrate ability to			H											Н	
prepare projections of															
points, lines, planes,															
solids.															
Draw and interpret			Н											Н	
section of solids															
Draw isometric view			Н											Н	
and projections for															
given orthographic															
projections.															

#### 4. CO-PO-PSO Articulation Matrix for Course Code AUVOC 104 Basic Auto Electrical Systems

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Describe the different possible types of electrical problems.		Н													Н
Describe how each of the major types of electrical test equipment are connected and interpreted.		Н													Н
Explain how to use a DMM for diagnosing electrical and electronic systems.		Н													Н
Explain how to use an oscilloscope for diagnosing electrical and electronic systems.		Н													Н

#### 5. CO-PO-PSO Articulation Matrix for Course Code AUVOC 105 Laboratory Course I

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSC	1 PSO2	PSO3
Ensure that for routine				Н											Н
maintenance and															
service the correct															
spare parts and															
appropriate grade of															
lubricant, coolants,															
oils and grease															
required have been															
obtained.															
Ensure all dismantled				Н											Н
components (including															
mechanical aggregates															
are cleaned and															
conditioned prior to															
reassembly).															
Identify and change				Н											Н
components requiring															
change due to															
continuous wear and															
tear.															
Comply with				Н											Н
organisation's current															
health, safety and															
security policies and															
procedures comply															
with organisation's															
current health, safety															
and security policies															
and procedures.															
Report any identified				Н											Н
breaches in health,															
safety, and security															
policies and															

procedures to the										
designated person.										
Coordinate with other		Н								H
resources at the										
workplace to achieve										
the healthy, safe and										
secure environment										
for all incorporating all										
government norms										
esp. for emergency										
situations like fires,										
earthquakes etc.		**								
Test common electrical		Н								Н
components.										
Use wiring diagrams to		Н								Н
identify circuits and										
circuit problems.		TT								TT
Diagnose common electrical problems.		Н								Н
Properly repair wiring		Н								Н
and connectors.		П								П
Read electrical		Н								Н
automotive diagrams.		11								
Perform		Н								Н
troubleshooting		11								**
procedures using										
meters, testlights, and										
jumper wires.										
LJ 1	1 1	1	1	ı		1	ı		1	<u>.                                    </u>

# 6. CO-PO-PSO Articulation Matrix for Course Code VOC 106 Laboratory Project-I

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Critical thinking in problem solving		Н											Н		
Presentation and communication skills		Н											Н		
Report organization and writing skills		Н											Н		
Independent learning and information integration skills		Н											Н		
Project management skill		Н											Н		

#### 7. CO-PO-PSO Articulation Matrix for Course Code AUVOC201: Industry Safety Practices

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	P	<b>SO1</b>	PSO2	PSO3
Discuss basic postulates of safe work environment and practices							H(2)						M	(2)		
Recognize threats of fatigue, accidents, hazards and Personal Protection							H(2)						M	(2)		
Adapt safe working practices							H(2)						M	(2)		
Correlate legal aspects of safety and necessary preventive measures in workplace							H(2)						M	(2)		

# 8. CO-PO-PSO Articulation Matrix for Course Code AUVOC 202: Engine Electrical Systems

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	I	PSO1	PSO2	PSO3
Explain battery operation, battery design and cell groups.			H(2)												H(2)	
Describe the operation of starting motor and starter solenoid.			H(2)												H(2)	
Describe ignition system operation.			H(2)												H(2)	
Describe fouled spark plug condition.			H(2)												H(2)	
Diagnose charging system problems			H(2)												H(2)	

# 9. CO-PO-PSO Articulation Matrix for Course Code AUVOC 203 Fuel Injection and Ignition System

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain Fuel system	H(2)												H(2)		
S.I. engine.															
Explain Fuel system	H(2)												H(2)		
C.I. engine.													, ,		
Explain Air Induction	H(2)												H(2)		
and Exhaust System.															
Explain Throttle Body	H(2)												H(2)		
and Port Fuel Injection															
System.															

# 10. CO-PO-PSO Articulation Matrix for Course Code AUVOC 204 ENGINE CONTROL SYSTEMS

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain engine control system and its components.		H(2)											H(2)		
Describe the working of sensors and module in engine control systems.		H(2)											H(2)		
Describe injection system operations.		H(2)											H(2)		
Carry out On board diagnostics.		H(2)											H(2)		
Diagnose and maintain the engine control system.		H(2)											H(2)		

#### 11. CO-PO-PSO Articulation Matrix for Course Code AUVOC205 Laboratory Course II

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Perform basic battery maintenance and tests		H(2)													H(2)
Perform maintenance, diagnosis and service of battery charging system.		H(2)													H(2)
Diagnose and test starting motor		H(2)													H(2)
Inspect alternator belt and adjust belt tension.		H(2)													H(2)
Do ignition system maintenance diagnosis and service		H(2)													H(2)

# 12. CO-PO-PSO Articulation Matrix for Course Code VOC 206 Laboratory Project-I

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	P	PSO1	PSO2	PSO3
Critical thinking in problem solving				H(2)									H	H(2)		
Presentation and communication skills				H(2)									H	H(2)		
Report organization and writing skills				H(2)									F	H(2)		
Independent learning and information integration skills				H(2)									Η	H(2)		
Project management skill				H(2)									H	H(2)		
Work as an individual, with support from a supervisor, formulating solutions to day-to-day problems by integrating knowledge and experience gained on the course and outside the course.				H(2)									F	H(2)		

#### **B.Voc Automobile Second Year**

#### 1. CO-PO-PSO Articulation Matrix for Course Code AUVOC301: Energy and Environment

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Describe basic							H(2)						H(2)		
concepts of															
conventional and non-															
conventional energy															
Recognize elements of							H(2)						H(2)		
primary non-															
conventional energy															
resources															
Correlate pollution, role							H(2)						H(2)		
of human being, and															
threats to environment															
Discuss ethical and							H(2)						H(2)		
legislative issues															
related to environment															
Express the needs and							H(2)						H(2)		
basic routes towards															
environment															
sustainability															

# 2. CO-PO-PSO Articulation Matrix for Course Code AUVOC302- Suspension and Steering System

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain the purpose function, objective and requirements of suspension system.			H(2)											H(2)	
Name and describe the different types of suspension system currently being used and how they function			H(2)											H(2)	
Explain the air bag system components and its operation			H(2)											H(2)	
Describe the steering columns and linkages, different steering system.			H(2)											H(2)	

#### 3. CO-PO-PSO Articulation Matrix for Course Code AUVOC303A: Tires and Braking System

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Perform the work operations required to		H(2)												H(2)	
change a vehicle's wheels/tires															
Functionality and design of various tires		H(2)												H(2)	
Explain the construction and operation of braking systems and components.		H(2)												H(2)	
Explain the principles and components of an ABS system and electrical components.		H(2)												H(2)	

#### 4. CO-PO-PSO Articulation Matrix for Course Code AUVOC303B Automotive Fuel and Emission Control System

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain Emission			H(2)											H(2)	
Control System.															
Explain Precombustion			H(2)											H(2)	
Emission Control															
System.															
Explain Evaporative			H(2)											H(2)	
Emissions Control															
Explain Post			H(2)											H(2)	
Combustion Emission															
Control System															

# 5. CO-PO-PSO Articulation Matrix for Course Code AUVOC304A Automobile Transmission System

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Identify the		H(2)											H(2)		
components of															
transmission system															
Analyze the steering		H(2)											H(2)		
system															
Demonstrate the		H(2)											H(2)		
functional requirement															
of automobile															
transmission															
Demonstrate the		H(2)											H(2)		
construction and															
working of Differential															
Mechanism															
Explain working of		H(2)											H(2)		
Electronic Automatic													. ,		
Transmission															

# 6. CO-PO-PSO Articulation Matrix for Course Code AUVOC304B Automobile Body Repair Technology

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain construction details of a body component	H(2)												H(2)		
Explain the different process is involved in coach work	H(2)												H(2)		
Explain the maintenance procedure of vehicle body	H(2)												H(2)		
Explain the different painting processes	H(2)												H(2)		
Describe different refinishing process	H(2)												H(2)		

# 7. CO-PO-PSO Articulation Matrix for Course Code AUVOC305 Laboratory Project-III

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
To carry out the maintenance of suspension system.				H(2)										H(2)	
To perform the suspension system diagnosis and service.				H(2)										H(2)	
To perform the maintenance and diagnosis procedure of steering columns.				H(2)										H(2)	
To perform the maintenance and diagnosis procedure of manual steering gear				H(2)										H(2)	
To carry out the manual steering gear service.				H(2)										H(2)	
Inspect tire condition; identify tire wear patterns; check and adjust air Pressure; determine necessary action				H(2)										H(2)	
Find the correct work methods and tools to use in changing wheels/tires and maintenance				H(2)										H(2)	
Identify and inspect brake system				H(2)										H(2)	

components; determine necessary action.							

# 8. CO-PO-PSO Articulation Matrix for Course Code AUVOC306 Major Project-III/Industrial Project-III

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	P09	PO10	PO11	PO12	PSO1	PSO2	PSO3
Critical thinking in problem solving				H(2)									H(2)		
Presentation and communication skills				H(2)									H(2)		
Report organization and writing skills				H(2)									H(2)		
Independent learning and information integration skills				H(2)									H(2)		
Project management skill				H(2)									H(2)		
Work as an individual, with support from a supervisor, formulating solutions to day-to-day problems by integrating knowledge and experience gained on the course and outside the course.				H(2)									H(2)		

# 9. CO-PO-PSO Articulation Matrix for Course Code AUVOC401: Entrepreneurship Development

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain key concepts underpinning											H(2)		H(2)		
entrepreneurship and its application in the recognition and exploitation of															
product/ service/ process opportunities															
Describe Key concepts underpinning innovation and the issues associated with developing and sustaining innovation within organizations											H(2)		H(2)		
Plan creative strategies for pursuing, exploiting and developing new opportunities											H(2)		H(2)		
Analyze basic Issues associated with securing and managing new business ventures											H(2)		H(2)		

#### 10. CO-PO-PSO Articulation Matrix for Course Code AUVOC 402 Autotronics

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Describe the	H(1)												H(1)		
Electronics system for															
engine															
Demonstrate the usage	H(1)												H(1)		
of intelligent sensors															
such as MAP,															
CKP,CMP, Lambda.															
Analyze the auxiliary	H(1)												H(1)		
system for electronics															
troubleshooting															
Scan the engine for	H(1)												H(1)		
diagnosis by using															
Engine scanner															

# 11. CO-PO-PSO Articulation Matrix for Course Code AUVOC 403 A Engine Diagnostic and Troubleshooting

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Identify and interpret		H(2)											M(2)		
engine performance															
concern; determine															
necessary action.		77(0)											7.5(0)		
Inspect engine		H(2)											M(2)		
assembly for fuel, oil,															
coolant, and other															
leaks; determine															
necessary action.		TT(O)											<b>N</b> ((O)		
Diagnose unusual		H(2)											M(2)		
engine noise or															
vibration concerns;															
determine necessary															
action		11(0)											M(O)		
Diagnose engine mechanical, electrical,		H(2)											M(2)		
determine necessary action.															
action.															

#### 12. CO-PO-PSO Articulation Matrix for Course Code VOC-403B Motor Vehicle Act and Regulations

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Interpret the Motor						H(2)								H(2)	
Vehicle Act and Traffic															
Rules															
Select the suitable						H(2)								H(2)	
mode of transportation															
and vehicle as per															
requirement															
Implement the						H(2)								H(2)	
business of buying and															
selling the vehicles															

#### 13. CO-PO-PSO Articulation Matrix for Course Code AUVOC 404A Hybrid and Electric Vehicles

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Explain the basics of					H								Н		
electric and hybrid															
electric vehicles, their															
architecture,															
technologies and															
fundamentals.															
Explain plug – in					H								Н		
hybrid electric vehicle															
architecture, design															
and component sizing															
and the power															
electronics devices															
used in hybrid electric															
vehicles.															
Analyze various electric					H								Н		
drives suitable for															
hybrid electric vehicles															
Discuss different					H								Н		
energy storage															
technologies used for															
hybrid electric vehicles															
and their control.															
Demonstrate different					H								Н		
configurations of															
electric vehicles and its															
components, hybrid															
vehicle configuration															
by different techniques,															
sizing of components															
and design															
optimization and															
energy management															

# 14. CO-PO-PSO Articulation Matrix for Course Code AUVOC 404B Vehicle Testing

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Classify various vehicle approval methods		H(2)											H(2)		
Describe vehicle testing procedures.		H(2)											H(2)		
Measure engine pollution using exhaust gas analyzer		H(2)											H(2)		
Describe Automobile Testing Standards.		H(2)											H(2)		

#### 15. CO-PO-PSO Articulation Matrix for Course Code AUVOC 405 Laboratory Course IV

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Diagnoses engine			H(2)										H(2)		
faults, identify correct															
cause and apply															
remedies to remove															
fault.															
Diagnoses cooling			H(2)										H(2)		
system faults identify															
correct cause and apply															
remedies to remove															
fault.															
Diagnoses lubrication			H(2)										H(2)		
system faults identify															
correct cause and apply															
remedies to remove															
fault.															
Diagnoses fuel supply			H(2)										H(2)		
system faults identify															
correct cause and apply															
remedies to remove															
fault															
Diagnoses electrical			H(2)										H(2)		
system faults identify															
correct cause and apply															
remedies to remove															
fault															

# 16. CO-PO-PSO Articulation Matrix for Course Code AUVOC406 Major Project-III/Industrial Project-III

Course Outcome	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Critical thinking in		H(2)												H(2)	
problem solving															
Presentation and		H(2)												H(2)	
communication skills															
Report organization and writing skills		H(2)												H(2)	
Independent learning and information integration skills		H(2)												H(2)	
Project management skill		H(2)												H(2)	
Work as an individual, with support from a supervisor, formulating solutions to day-to-day problems by integrating knowledge and experience gained on the course and outside		H(2)												H(2)	
the course.															

#### **B.Voc Automobile Third year**

Course Structure and Syllabus Sem V (Pattern2020)

**Bachelor of Vocation (B. Voc)** 

in Automobile

#### Industrial On-Job Training - I

Students should complete their Industrial On-Job in any industry for 12 weeks and submit a detailed (day-to-day basis) report of the same to the department. The student should also collect evaluation sheet (in sealed envelope) from the industry coordinator and submit to the department. Final evaluation of In-plant Training coursework will be based on evaluation by the industry coordinator and viva-voce examination.

	PO1	PO2	PO3	PO4	PO5	P06	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
Inplant Training	H(2)	<b>H</b> (2)	H(2)	H(2)	H(2)	H(2)	H(2)

#### Summary of the Course Outcome (CO) attainment for the mentioned courses:

Given the disruptions caused by the pandemic, the assessment of course outcomes became challenging. As a result, the course outcomes from the Second semester, when the pandemic abated and examinations resumed, are outlined below:

AUVOC201: Industry Safety Practices: The course outcomes have a high correspondence with PO6 and PO11, and a moderate correspondence with PSO2.

AUVOC 202: Engine Electrical Systems: The course outcomes have a high correspondence with PO3 and PSO1.

AUVOC 203 Fuel Injection and Ignition System: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC 204 ENGINE CONTROL SYSTEMS: The course outcomes have a high correspondence with PO2 and PSO1.

AUVOC205 Laboratory Course II: The course outcomes have a high correspondence with PO1 and PSO1.

VOC 206 Laboratory Project-I: The course outcomes have a high correspondence with PO9 and PSO1.

AUVOC301: Energy and Environment: The course outcomes have a high correspondence with PO6 and PO11, and a moderate correspondence with PSO2.

AUVOC302- Suspension and Steering System: The course outcomes have a high correspondence with PO3 and PSO1.

AUVOC303A: Tires and Braking System: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC303B Automotive Fuel and Emission Control System: The course outcomes have a high correspondence with PO3 and PSO1.

AUVOC304A Automobile Transmission System: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC304B Automobile Body Repair Technology: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC305 Laboratory Project-III: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC306 Major Project-III/Industrial Project-III: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC401: Entrepreneurship Development: The course outcomes have a high correspondence with PO6 and PO11, and a moderate correspondence with PSO2.

AUVOC 402 Autotronics: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC 403 A Engine Diagnostic and Troubleshooting: The course outcomes have a high correspondence with PO1 and a moderate correspondence with PSO2.

VOC-403B Motor Vehicle Act and Regulations: The course outcomes have a high correspondence with PO6 and PO11, and a moderate correspondence with PSO2.

AUVOC 404A Hybrid and Electric Vehicles: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC 404B Vehicle Testing: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC 405 Laboratory Course IV: The course outcomes have a high correspondence with PO1 and PSO1.

AUVOC406 Major Project-III/Industrial Project-III: The course outcomes have a high correspondence with PO1 and PSO1.

Industrial On-Job Training – I: The course outcomes have a high correspondence with all POs and PSOs.

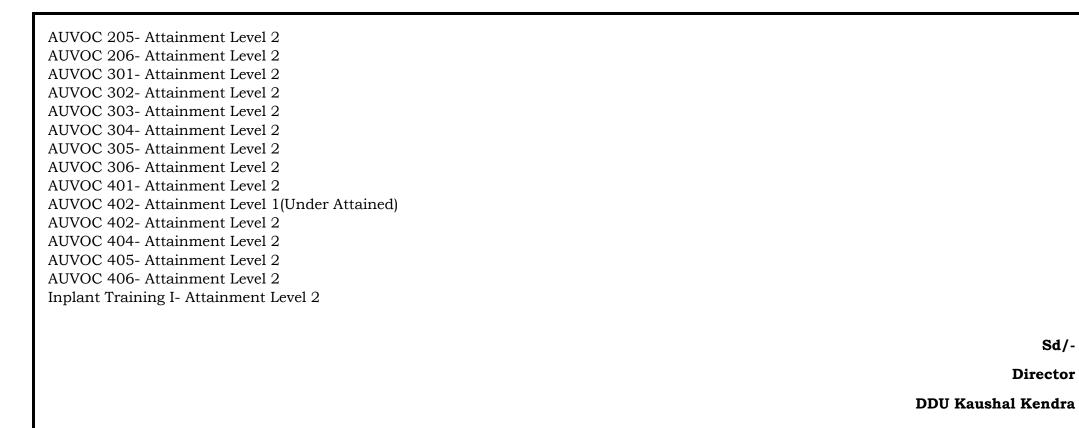

From Above Matrix, Overall Attainment Level for above courses are

AUVOC 201- Attainment Level 2

AUVOC 202- Attainment Level 2

AUVOC 203- Attainment Level 2

AUVOC 204- Attainment Level 2
